TBS Group has received the Business International Finance Award 2016 in the Digital Finance for SME category for its innovative project in the Administration, Finance and Control Area.

TRIESTE, 28 June 2016 – Stefano Beorchia, the CFO of TBS Group, received the Business International Finance Award 2016 in the Digital Finance SME category, awarded to the TBS Group for the development of the best innovative project in the Administration, Finance and Control Area.

The award was presented by Business International, a company specialising in the organisation of conferences and training courses for senior executive managers and in tailored consulting services for companies. As part of the CFO Summit, an opportunity for administrative managers to meet up and discuss various topics, every year Business International selects and awards the most interesting and innovative projects.

From the second half of 2014 onwards, the TBS Group initiated the migration of its applications for administration and control operations to the cloud, making the management of its operational processes more efficient and mobile-friendly.

"The cloud represents a technological and at the same time a strategic and cultural revolution," explained Beorchia, who coordinated the project. "The group is progressively adopting this methodology for all the different operations in the Administration, Finance and Control Area. Very significant results have already been achieved, resulting in more accurate financial planning and forecasting as well as reductions in total cost of the ICT architecture necessary to support the operations."

TBS Group, for the project development, adopted Oracle technology and engaged Reply Consulting as its advisor.

***TBS Group**, listed on the Stock Exchange AIM Italia, designs and manages outsourced clinical engineering and ICT services, designs and provides integrated e-Health and e-Government solutions and integrated systems of medical equipment. With registered offices in Trieste at AREA Science Park and revenues totaling 233.8 million euros in 2015, the Group is present in 20 countries and operates with about 2,400 employees, in over 20 specialist centres and in more than 300 on site workshops linked to over 1,000 hospitals and other public and private bodies.*
